

SMART CLIPSE

Vehicle Tracking Unit

VST Vehicle Tracking Unit (VTU) is an advanced IRNSS & GPRS terminal with embedded e-SIM & IRNSS(NavIC) module for effective fleet management. User-friendly cum Next Level intelligent computing Web and Mobile Applications for real-time tracking & MIS Reports.

AIS 140
Certified
IRNSS/NavIC

Mobile Apps

Real Time Vehicle Tracking

Indian Regional Navigation Satellite System

Government Approved Panic Button

Multi Network e-SIM

Offline Storage : 100000 Logs

Superior Battery Backup(1500mAh)

Alerts

- Location Update
- Location-Update History
- Disconnect from main battery
- Low Battery
- Low battery removed
- Re-Connect to main battery
- Ignition ON
- Ignition OFF
- Box Opened
- Emergency State ON
- Emergency State OFF
- OTA Updation
- Harsh Braking
- Harsh Acceleration
- Rash Turning
- Impact Alert
- Geofencing

Safe and Secure Travel

SMART CLIPSE

Vehicle Tracking Unit VST0507C

SMART FEATURES

All-time Live Tracking	Vehicle Battery Status	Low Battery Alert
Tracking on Demand	Configurable through SMS	Over Speed, Idle Time and Scheduled Alerts
Tracking by Time Interval	In-built Embedded Antenna	SMS and GPRS TCP Communication
Engine Immobilizer	Low Power Consumption Mode	Data Logger Mechanism
6 Axis Accelerometer-Gyrometer	Tamper Proof	Geofencing
Fuel Level Sense	Vibration Alert	Onsite Support
Ignition ON/OFF Status and Alerts	One Year Manufacturer Warranty	Rugged and Environment Proof ABS Casing with IP65

APPLICATIONS

 Fleet Management	 Boat Tracking	 Anti Hijack and Vehicle Security System
 Trailer Tracking and Surveillance	 Usage Based Insurance	 Tracking for Law Enforcement
 School Bus Tracking	 Adventure / Traveling	 Agriculture Fleet Management
 Corporate Transportation	 Intelligent Transportation	 Mobility Advertisement

TECHNICAL SPECIFICATIONS

Input Voltage	:	DC 7.0- 36.0V
Power Consumption	:	40mA in Sleep mode, 100 mA in Active mode
Battery Backup	:	3.7V, 1500mAh(Lithium Ion)
Dimensions	:	124mm x 90mm x 25mm
Weight	:	160g
Operating Temperature	:	-40°C to 85°C
Protection	:	IP65, ISO 7637-5, IS2465
Memory	:	100000 Logs
Communication	:	GSM, GPRS, 1 Serial Port, TCP/IP
GSM Module	:	Quad band (850, 900,1800,1900 MHz)
GNSS Type	:	IRNSS, AGPS, GLONASS, GAGAN
GNSS Sensitivity	:	Acquisition : -140dBm, Tracking : -153dBm, Reacquisition : -156dBm
GNSS Frequency	:	L5 1176.45MHz(IRNSS), L1 1.57542GHz(GPS)
Channels	:	>12
Position Accuracy	:	<1.8m CEP
Velocity Accuracy	:	<0.1m/s
Acceleration Accuracy	:	0.1m/s ²
Timing Accuracy	:	1PPS Out (3.9ns)
Reacquisition	:	<1.5s
Hot Start	:	<2s
Cold Start -TTFF	:	<44s
Warm Start	:	<38s
Altitude Limitation	:	Max. 18000m
Acceleration Limitation	:	4G
Digital IO's	:	Two Digital Outputs, Four Digital Inputs
Analog	:	One ADC, Two dedicated ADC for battery
Alarm System	:	Immobilizer, Buzzer, External-Gradual Stop
